

How to make an annual emergency plan on the web side (Document)

The user logs into the OLISS web side and clicks "Customs Affairs Management-Annual Emergency Plan-Annual Emergency Plan" in order to enter the annual emergency plan interface. On the annual emergency plan page, click "Make Annual Emergency Plan", select the vessel, year, and execute month calculation rule. Click "Confirm" to enter the interface where users can select specific emergency items based on their needs (if there are many items, they can filter by project type). Click "Submit", select the approval process, and finally click "Confirm".

The screenshot displays the OLISS web interface with a modal dialog box titled "Make Em'cy Plan". The dialog box contains the following fields:

- Vessel ***: A dropdown menu with "Please select" as the current value.
- Year ***: A dropdown menu with "Please select" as the current value.
- Execute Month Calculation Rule ***: A dropdown menu with "According to the Effective Date Set for" as the current value.

At the bottom of the dialog box, there are two buttons: "Confirm" (highlighted with a red box) and "Cancel".

Annotations on the screenshot include:

- "1. Click in order to enter the annual emergency plan interface" pointing to the "Annual Em'cy Plan" menu item in the left sidebar.
- "2. Click 'Make Annual Emergency Plan'" pointing to the "Make Annual Em'cy Plan" button in the main content area.
- "3. Select the vessel, year, and execute month calculation rule. Click 'Confirm'" pointing to the "Confirm" button in the dialog box.

The background interface shows a table with columns: No., Vessel Name, Number, Submission Time, Status, and Operation. The table contains several rows of data, including entries for "LINK OCEAN 1" with various submission times and "Approved" statuses.
