

How to add the repair feedback on the web side (Document)

The user logs into the OLISS web side, then clicks "Repair Management-Repair Feedback" in order. In the repair feedback interface, click "Add" to select the vessel, department, and feedback repair document. Then click "Confirm". In the select repair document interface, check the repair documents you wish to feedback, then click "Next Step". Fill in the feedback name, feedback comments, and feedback explanation, select the priority level, and finally click "Submit".
